Mr. Dwight Armitt
Oak Point Service
272 Oak Point Hwy.
Winnipeg MB R2R 1V1

Dear Mr. Armitt:

Enclosed is Revised Dangerous Goods Handling and Transportation Act **Licence No. 186 HW R** dated March 27, 2008 issued in accordance with The Dangerous Goods Handling and Transportation Act to **Paul's Hauling Ltd. operating as Oak Point Service** for the operation of two space heating used oil burners and two space heating used oil boilers facility ("the facility") located at 272 Oak Point Road, in the City of Winnipeg, and in accordance with the Application filed under The Dangerous Goods Handling and Transportation Act on April 22, 2002, amended on September 26, 2002 and the subsequent request for revision dated March 14, 2008.

In addition to the enclosed revised Licence requirements, please be informed that all other applicable federal, provincial and municipal regulations and by-laws must be complied with.

For further information on the administration and application of the Licence, please feel free to contact Darrell Ouimet, Environment Officer at (204) 945-7072.

Yours truly,

Tracey Braun, M. Sc.
Director
Dangerous Goods Handling
and Transportation Act

Enc.

c: B. Gillespie, Regional Director, Central Region

LICENCE

Licence No./Licence n° 186 HW R

Issue Date/Date de délivrance October 11, 2004

Revised: March 27, 2008

In accordance with The Dangerous Goods Handling and Transportation Act (C.C.S.M. c. D12)/
Conformément à la Loi sur la manutention et le transport des marchandises dangereuses (C.P.L.M. c. D12)

THIS LICENCE IS ISSUED TO:/CET LICENCE EST DONNÉ À:

PAUL'S HAULING LTD. operating as OAK POINT SERVICE; "the Licencee"

for the operation of two space heating used oil burners and two space heating used oil boilers facility ("the facility") located at 272 Oak Point Road, in the City of Winnipeg, and in accordance with the Application filed under The Dangerous Goods Handling and Transportation Act on April 22, 2002, amended on September 26, 2002 and the subsequent request for revision dated March 14, 2008 and subject to the following specifications, limits, terms and conditions:

DEFINITIONS

In this Licence,

"**accredited laboratory**" means an analytical facility accredited by the Standard Council of Canada (SCC), or accredited by another accrediting agency recognized by Manitoba Conservation to be equivalent to the SCC, or be able to demonstrate, upon request, that it has the quality assurance/quality control (QA/QC) procedures in place equivalent to accreditation based on the international standard ISO/IEC 17025, or otherwise approved by the Director;

"**contaminant**" means any solid, liquid, gas, waste, radiation or any combination thereof that is foreign to or in excess of the natural constituents of the environment and:

- a) that affects the natural, physical, chemical or biological quality of the environment; or

****A COPY OF THE LICENCE MUST BE KEPT ON SITE AT THE FACILITY AT ALL
TIMES****

- b) that is or is likely to be injurious or damaging to the health or safety of a person;

"Director" means an employee of the department who has been designated or appointed by the Minister;

"Environment Officer" means a person who has been appointed or designated by the Minister under Section 6 of the Dangerous Goods Handling and Transportation Act;

"licenced carrier" means a person who has a valid licence to transport hazardous waste pursuant to Manitoba Regulation 175/87 under The Dangerous Goods Handling and Transportation Act (C.C.S.M. c. D12);

"oil" means any petroleum or synthetic crankcase oil, engine oil, hydraulic fluid, transmission fluid, gear oil, heat transfer fluid, or other fluid capable of use for lubricating purposes in machinery or equipment;

"registered generator" means a person who is registered as a hazardous waste generator pursuant to Manitoba Regulation 175/87 under The Dangerous Goods Handling and Transportation Act (C.C.S.M. c. D12);

"used oil appliance" means any device used to convert fuel into energy in which used oil is the fuel and the appliance is intended to supply heat directly to a room or space (space heater) or to a room or space through a distribution system (boiler). The burner or boiler shall comply with CAN/CSA Standard B139 Installation Code for Oil Burning Equipment, as updated from time to time; and

"used oil" means oil that through use, storage, handling, defect, damage, expiry of shelf life or other similar circumstances can no longer be used for its original purpose.

GENERAL TERMS AND CONDITIONS

This Section of the Licence contains requirements intended to provide guidance to the Licencee in implementing practices to ensure that the environment is maintained in such a manner as to sustain a high quality of life, including social and economic development, recreation and leisure for present and future Manitobans.

1. The Licencee shall implement a high standard of equipment maintenance and good housekeeping and operational practices with respect to the facility, at all times.

2. The Licencee shall, upon the request of the Director and in addition to any of the specifications, limits, terms or conditions specified in this Licence:
 - a) sample, monitor, analyze and/or investigate specific areas of concern regarding any segment, component or aspect of contaminant storage, containment, treatment, handling, disposal or emission systems, for such contaminants or ambient quality, aquatic toxicity, leachate characteristics and discharge or emission rates, for such duration and at such frequencies as may be specified;
 - b) determine the environmental impact associated with the release of any contaminants from the said facility; or
 - c) provide the Director, within such time as may be specified, with such reports, drawings, specifications, analytical data, descriptions of sampling and analytical procedures being used, bioassay data, flow rate measurements and such other information as may from time to time be requested.
3. The Licencee shall, unless otherwise specified in this Licence:
 - a) carry out all sampling of, and preservation and analyses on, water, soil or air samples in accordance with methodologies approved in writing by the Director;
 - b) certify that all analytical determinations are undertaken by an accredited laboratory; and
 - c) report the results to the Director within 60 days of the samples being taken.
4. The Licencee shall provide to the Director, upon request, all information required under this Licence, in writing and in such form and content (including number of copies), as may be specified by the Director.

SPECIFICATIONS, LIMITS, TERMS AND CONDITIONS

Respecting Facility Operation

5. The Licencee shall not receive at the facility used oil from commercial or industrial generators that are not registered generators.
6. The Licencee shall transport hazardous waste to or from the facility only when it is accompanied by a hazardous waste manifest, or a dangerous goods shipping document, as appropriate.
7. The Licencee shall transport hazardous wastes to or from the facility only when licenced carriers are consigned to transport the hazardous wastes.
8. The Licencee shall, unless otherwise specified by this Licence, retain all records during the full life of operation of the facility, and after closure, for such period of time as may be specified by the Director. Records may be transferred from their original form to other accepted forms for information storage.

9. The Licencee shall equip the facility with spill cleanup equipment and supplies.
10. The Licencee shall obtain approval in writing from the Director for any proposed alteration to the facility before proceeding with the alteration.
11. The restrictions and conditions of this Licence are severable. If any restriction or condition of this Licence, or the application thereof, to any circumstances is held invalid, the application of such restriction or condition to other circumstances and the remainder of this Licence shall not be affected thereby.

Respecting Used Oil Appliances

12. The Licencee shall operate the used oil appliances in accordance with the application dated April 22, 2002, amended September 26, 2002.
13. The Licencee shall only collect used oil at the facility in the storage tanks with an aggregate capacity of up to 3500 litres referred to in the Application and revisions.
14. The Licencee shall only burn used oil as a fuel in the used oil appliances .
15. The Licencee shall store all used oil in a manner that minimizes any potential release or fire hazard.
16. The Licencee shall position the used oil appliance heater chimneys to prevent the intrusion of combustion fumes into any adjoining air intake, window or door.
17. The Licencee shall dispose of all ash produced by combustion in the used oil appliances, that can be classified as a hazardous waste, by a hazardous waste disposal company or in a manner approved by the Director.
18. The Licencee shall supply to the Director, no later than June 30 of each year, a written report summarizing the amount of used oil combusted in the used oil appliances for the previous heating season.
19. The Licencee shall, on a minimum monthly basis, perform the following maintenance operations where applicable:
 - a) the heat exchanger and flue piping for the used oil appliances shall be vacuum cleaned;
 - b) all sludge collected in the stainless steel hot filter elements shall be removed; and
 - c) ash and other deposits shall be removed from the drip legs.The records of these maintenance operations shall be made available for inspection by an Environment Officer upon request.

Paul's Hauling Ltd.
Licence No. 186 HW R
Page 5 of 5

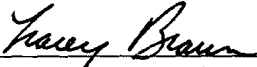

20. The Licencee shall clean the used oil appliance flue stacks annually, at minimum and the records of this maintenance operation shall be made available for inspection by an Environment Officer upon request.
21. The Licencee shall install the used oil appliances in accordance with the Gas and Oil Burner Act Chapter G30 and accompanying regulation.

Respecting Training

22. The Licencee shall train all persons at the facility who will be assigned duties with respect to the operation of the used oil appliances with respect to:
 - a) Transportation of Dangerous Goods Regulations; and
 - b) procedures pertaining to the operation of the facility.

REVIEW AND REVOCATION

- A. This Licence replaces Dangerous Goods Handling and Transportation Act Licence No. 186 HW which is hereby rescinded.
- B. If, in the opinion of the Director, the Licencee has exceeded or is exceeding or has or is failing to meet the specifications, limits, terms, or conditions set out in this Licence, the Director may, temporarily or permanently, revoke this Licence.
- C. If, in the opinion of the Director, new evidence warrants a change in the specifications, limits, terms or conditions of this Licence, the Director may require the filing of a new Application pursuant to The Dangerous Goods Handling and Transportation Act.
