

# Environment Act Licence

Manitoba  
Environment

Licence No. 1428  
Issue Date NOVEMBER 5, 1990

In accordance with the Manitoba Environment Act (C.C.S.M. c. E125)

THIS LICENCE IS ISSUED TO:

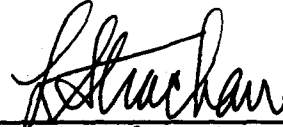

**KAYWAY INDUSTRIES INC.; APPLICANT**

The following limits, terms, and conditions shall be complied with in connection with the operation of a slag reprocessing project comprising a wet screening process and a drying plant with truck and rail loading facilities located as described in APPENDIX A to this Licence.

1. The Applicant shall not cause or permit the emission of particulate matter from any point of emission of the operation in excess of 0.23 grams per dry standard cubic metre calculated at 25 degrees Celsius and 760 millimetres of mercury, corrected to 12 percent carbon dioxide for processes involving combustion.
2. The Applicant shall not cause or permit visible emissions from any point of emission of the operation that exhibit an opacity equal to or greater than:
  - (a) 20 percent for a period or periods of more than 4 minutes in the aggregate in any one hour;
  - (b) 40 percent at any time.
3. The Applicant shall limit the emission of particulate matter from the operation to such an extent that airborne particulate matter from any part or process of the operation does not exhibit an opacity greater than 5 percent at any point beyond the property line of the operation.
4. The Applicant shall ensure that a high standard of equipment maintenance and good housekeeping practices are carried out at all times consistent with meeting the requirements of this Licence.

.../2

5. The Applicant shall ensure that adequate stack sampling facilities are installed in a manner satisfactory to the Director; the facilities shall include proper sampling ports, safe sampling platforms, safe access to sampling platforms, access to electrical power to operate the sampling equipment and such additional sampling facilities as are requested by the Director.
