

AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION
UNDER THE CLEAN ENVIRONMENT ACT

Re: The Clean Environment Commission and Sherwin-Williams Co., of Canada Ltd.,
applicant,

WHEREAS pursuant to the provisions of The Clean Environment Act, Sherwin-Williams Co., of Canada Limited submitted an application to The Clean Environment Commission to prescribe limits in connection with the operation of a plant concerned with the manufacture, processing and mixing of paint products and agricultural chemicals, the said operation being located at 110 Sutherland Avenue on lots numbered 118, 119, 120, 121, and 122, Plan 21 and 63, and Parish Lot 35E in the City of Winnipeg, Manitoba,

AND WHEREAS representations were made to The Clean Environment Commission by persons who are, or are likely to be affected by an Order of the said Commission prescribing limits in connection with the said operation,

AND WHEREAS The Clean Environment Commission held a public hearing on the 29th day of July, 1974, in the Board Room of Building Number 2 at 139 Tuxedo Avenue, Winnipeg,

AND WHEREAS The Clean Environment Commission considered the application on the 26th day of August, 1974,

IT IS HEREBY ORDERED THAT

1. The applicant shall ensure that at any point of impingement off the said property the odour emanating from the said operation is not detectable when diluted with 1 volume of odour-free air as determined at two successive samplings not less than 15 minutes apart and not more than 60 minutes apart,

*Assigned to
Air Pollution Control
Jan 8/74
CBO/RSY*

2. The applicant shall ensure that solid particulate emissions from any process in the said operation shall not exceed 0.57 grams per standard cubic meter calculated at 20°C and 760 millimeters of mercury (0.25 grains per standard cubic foot and 68°F and 30 inches of mercury) at the point of emission,
3. The applicant shall not engage in the following operations at the said location:
 - (a) the blown oil process involving the heating of oils with hot air,
 - (b) the linseed oil process involving the cooking, crushing, grinding and removal of oil from flax seed and the storage of linseed oil,
 - (c) the varnish cooking process involving the heating of varnish in kettles or other containers, and
 - (d) the storage of herbicide products,
4. The applicant shall ensure that high standards of housekeeping and maintenance are maintained in order to minimize casual emissions of dust, noise and odour emanating from the said operation.

Order No. 381

Dated at the City of Winnipeg

this 30th day of October, 1974.
