Dear Mike Pinette:

Re: Environment Act Licence No. 964 R - Notice of Alteration Request

Thank you for your notice of alteration dated October 8, 2021 and submitted on December 6, 2021. The submission is considered as an alteration to Environment Act Licence No. 964 R in accordance with Section 14 of The Environment Act, issued to the 3M Canada Morden facility in Manitoba.

The alteration is due to the transfer of the Scotchkote™ operation from Morden to the 3M facility located in Angleton, Texas. The following operations will be decommissioned from the Morden facility:

1. Scotchkote™ Line 5 manufacturing equipment including dust collection equipment and 10 roof/wall exhaust outlets.
2. Brabender Minors Automation, dust collection system, and one wall exhaust outlet.
3. Boxing line equipment, dust collection system, and three roof exhaust outlets.
4. Scotchkote™ Line 6 manufacturing equipment and Lab including dust collection equipment and four roof/wall exhaust outlets.

Once the removal of the above indicated exhaust system is completed, the exhaust outlets will be sealed.

Upon review of the notice of alteration, I am satisfied that the potential changes in the environmental effects resulting from the proposed alteration would be insignificant. Therefore, I approve the implementation of the October 8, 2021 notice of alteration in accordance with Section 14(2) of The Environment Act. Once the decommissioning and removal of the equipment and associated exhaust lines are completed, you are required to submit updated floor and roof plans. All clauses of Environment Act Licence No. 964 R remain in effect.

Should you have any questions regarding this approval, please contact Eshetu Beshada, Senior Environmental Engineer, Environmental Approvals Branch, at Eshetu.Beshada@gov.mb.ca or (204) 250-1932.

Sincerely,
