

AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION  
UNDER THE CLEAN ENVIRONMENT ACT

RE: The Clean Environment Commission and Burns Food Limited, applicant.

WHEREAS pursuant to the provisions of the Clean Environment Act, Burns Food Limited ( Winnipeg ), Marion and Lagimodiere, St. Boniface, City of Winnipeg, submitted an application to the Clean Environment Commission to prescribe limits in connection with the operation of an animal slaughtering and meat packing and processing plant including edible and inedible rendering and blood drying, located on Lot 292/293 Plan 433 Parish Lot Roman Catholic Mission Property in the City of Winnipeg,

AND WHEREAS a representation was made to the Clean Environment Commission by a person who is or is likely to be affected by an Order of the Commission prescribing limits in connection with the said operation,

AND WHEREAS the Clean Environment Commission held a public hearing on the 26th, 27th and 28th days of June, 1972 in the Archwood School in St. Boniface, City of Winnipeg, Manitoba,

AND WHEREAS the Clean Environment Commission considered the said application on the 22nd day of January, 1973 and issued Order No. 240,

AND WHEREAS Western Industrial Consultants Ltd., submitted to the Clean Environment Commission, on behalf of the said applicant, a request for variation of the said Order,

AND WHEREAS the Clean Environment Commission held a public hearing on the 15th day of July, 1974 in the Board Room of Building 2 of the Fort Osborne Complex at 139 Tuxedo Avenue, Winnipeg for the purpose of hearing evidence in connection with the said request for variation of the said Order,

AND WHEREAS the Clean Environment Commission considered the request of the applicant for variation of the said Order on the 23rd day of July, 1974,

IT IS HEREBY ORDERED THAT ORDER NO. 240 BE VARIED TO READ AS FOLLOWS

*Assignment remains same.  
J. W. Elias*

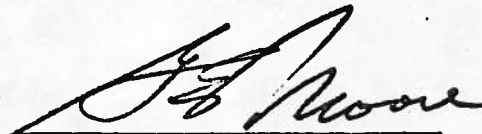

1. The applicant shall, not later than the 30th day of November, 1974, install and set in operation equipment and facilities to effectively reduce malodour emanating from inedible rendering cookers and/or blood driers, C-b-267

2. The applicant shall ensure that on and after the 1st day of December, 1974
  - (a) gases and vapours discharged from inedible rendering cookers and/or blood driers to the air contain less than one hundred and fifty (150) odour units per standard cubic foot and that said gases and vapours are not diluted before measurement except as required
    - (i) to introduce combustion gases or chemical reactants necessary for odour abatement, or
    - (ii) to assure gathering of said gases and vapours,
  - (b) sampling points are provided in the exhaust system from the inedible rendering coolers and/or the blood driers in conformity with the requirements of the Environmental Protection Branch of the Department of Mines, Resources and Environmental Management,
3. The applicant shall ensure that on and after the 1st day of December, 1974 at any point of impingement off the plant premises the atmosphere contains less than (7) odour units per standard cubic foot, emanating from the said operation,
4. The applicant shall ensure that:
  - (a) all odour control and reduction equipment and facilities are maintained and in sound operating condition and,
  - (b) all odour control and reduction equipment and facilities are in operation whenever or however the said cookers and/or blood driers are in use,
5. The applicant shall ensure that general housekeeping and maintenance measures are of a standard that will meet the requirements in Clause 3 of this Order.

Order No. 240 As Varied

Dated at the City of Winnipeg

this 6th day of September, 1974.

Chairman  
Clean Environment Commission
