RE: Request for Minor Alteration – Swan River Lagoon – E.A. License No.502 (1975)

Dear Robert,

Please accept this letter requesting a minor alteration to Environmental Act License No. 502 for the repair of the intermediate dyke, and the replacement of the weir, with a knife valve. This work will give us increased control of the flow of wastewater from the primary cell into the secondary cell. Given the small scope of the project, we have determined the environmental effects of this work, including terrestrial, aquatic, and atmospheric are insignificant.

I have attached our procedures for the dyke repair and valve addition along with drawings of the existing lagoon and the proposed work.

If you need any further information or have any questions please don't hesitate to call.

Regards,

Derek Poole
Superintendent of Works
Town of Swan River

Cc: David Yunker, Environment Officer
