**Re: Evergreen Environmental Technologies, Licence No. 2612 RR – Extension request for Gasification Pilot Project**

Dear Monty Peckover:

Thank you for your Notice of Alteration dated February 23, 2021 which requests an extension of the timeframe for the gasification pilot project. It is indicated that due to COVID-19, weather and logistics the anticipated emission testing has not be completed. The extension is requested to complete the stack testing required to confirm the performance of the technology.

The potential environmental effect of the requested extension to the gasification pilot project is insignificant, and does not alter any approved activity at the Development; therefore, a change in the timeframe is not considered to be an alteration. The extension request for the gasification pilot project is granted until March 31, 2022 for emission testing of the system.

Please notify Siobhan Burland Ross, Manager of Municipal and Industrial Section, at [Siobhan.BurlandRoss@gov.mb.ca](mailto:Siobhan.BurlandRoss@gov.mb.ca) or 204-793-6487 five (5) days prior to the date of commissioning and testing of the gasification system.

Sincerely,

Original Signed By  
Shannon Kohler, Director
