Dear Mrs. Penner:

**Re: Penner Waste Inc. Licence 2990 RR – Request for Alteration for Groundwater Wells**

Environment Act Licence 2990 RR was issued August 16, 2016 in response to your May 27, 2016 notice of alteration and in accordance with section 14 of *The Environment Act*.

I have further considered your notice of alteration with respect to the requested change to the groundwater monitoring well installation and sampling schedule. Given the site-specific soil and groundwater conditions at the development, I have determined to alter Clause 16 of Licence 2990 RR as follows:

16. The Licencee shall install, upon the written request and in the timeframe specified by the Director, three monitoring wells; one upstream and two downstream of the Development. The Director shall specify the frequency of sampling and the parameters to be sampled.

If you have any questions regarding the revised sampling parameters, please contact Mr. Tyler Kneeshaw, Environment Officer at 204-239-3608 or by electronic mail at [Tyler.Kneeshaw@gov.mb.ca](mailto:Tyler.Kneeshaw@gov.mb.ca)

Yours sincerely,

Tracey Braun, M.Sc.  
Director
