Dear Ryan Smith:

Re: Environment Act Licence No. 3213 - Notice of Alteration Request

Thank you for your notice of alteration submitted on November 29, 2021. The submission is considered as an alteration to Environment Act Licence No. 3213 in accordance with Section 14 of The Environment Act, issued to the Univar Canada Ltd facility in Manitoba.

The alteration is the addition of four double walled storage tanks over a period of six months. Each tank holds approximately 120,000 liters and brings the total storage capacity to 1,720,000 liters. There would be no change to the type of product stored in the tanks. The tanks will be installed on engineered concrete slabs similar to the other tanks not contained within the dyke.

Upon review of the notice of alteration, I am satisfied that the potential changes in the environmental effects resulting from the proposed alteration would be insignificant. Therefore, I approve the implementation of the November 29, 2021 notice of alteration in accordance with Section 14(2) of The Environment Act. This approval is conditional on meeting the requirements of the Storage and Handling of Petroleum Products and Allied Products Regulation and the codes, standards or other guidance documents adopted or referenced by that regulation. All clauses of Environment Act Licence No. 3213 remain in effect.
