

The Dauphin Ag Society and Manitoba Agriculture in Partnership with
Manitoba Beef and Forage Initiatives and Manitoba Beef Producers

Beef Nutrition, Pasture Planning and Calving Workshop

Date: Wednesday, January 15, 2025

Time: 9:30 AM – 3:30 PM

Place: Ste. Rose Community Centre
561 1st St S., Ste. Rose MB

Agenda

Coffee and registration

Building Your Beef Herd: How Trace Minerals Can Improve Profitability - Laurentia van Rensburg - Global Head of Commercial (Nutrition) Technology Group, Alltech
Learn more about how optimizing mineral intake, boosts immunity and calving rates and also ensures better postnatal nutrition and overall performance in young cattle. Sponsored by Alltech

Pasture Planning 101 – Annaliese Walker – MaiaGrazing, Princeton, MN

Learn more about the purpose of a grazing system, and why it is in your best interest to concern yourself with when, where and how long your cattle spend on any piece of your land.

2024 Pasture and Water Testing Results – Shawn Cabak – Livestock and Forage Extension Specialist - Manitoba Agriculture

Calving Workshop and Demonstration – MBP – Dr. Deanne Wilkinson – Manitoba Agriculture Extension Veterinarian - This hands-on demonstration will feature various calving issues and calf resuscitation. Participants will have the opportunity for hands-on learning and coaching from a veterinarian.

(Pre-Registration required by Friday, January 10, 2025)

Registration fee at the door - \$20.00 per person
